Collect with Confidence - A 360° Approach to Increased Profits

“Debtmaster has served us well for 26 years. And 2 years ago we made the move to Debtmaster’s Cloud platform. It was so fast and easy to implement and its performance has been rock solid in the Cloud!”

-- D. Thonn

DEBTMASTER® 360: WE HAVE YOU COVERED

Whether you’re a small office or a large agency with many call centers, Debtmaster® 360 can help you manage compliance, enhance security, and provide quality service for clients and debtors.

At Comtronic® we develop fully integrated collection technology that delivers all your debt management, phone system, and client reporting needs in one secure platform. Easily accessible from the cloud, your office is limitless in size and number of locations...and the friendly Comtronic staff provides all service and support.

Debtmaster empowers collectors with the best in workflow management, debtor information, payment utilities, reporting tools, documentation, and compliance resources, all available with just a few clicks. Best of all, with the Debtmaster cloud offering, users can access the information anytime, anywhere, with fully integrated applications.

Comtronic has more than 30 years of experience working within the collection industry, incorporating feedback and best practices to create the best collection technology on the market. Debtmaster 360 is an affordable, flexible, compliance-friendly collection management platform that equips collection departments and agencies of any size to be efficient and profitable.... best of all, your upfront investment is minimal since it is Cloud-based and licensed month to month.

BETTER MANAGE YOUR COLLECTIONS WITH DEBTMASTER 360

Innovative Technology that Fits Your Business

Debtmaster® 360

Our Cloud-based collection software, **Debtmaster 360**, offers everything you need to run your collections department. Quick setup and seamless operation with secure features allows your agency to be the best of the best, while significantly reducing capital expenses and exponentially increasing reliability and redundancy. This leaves you to focus on the core business of Debt Collection.

With advanced communication modules, take advantage of text and email messaging to communicate to debtors that consent to using these fast and efficient means. Reach your Debtors electronically with these increasingly preferred methods using advanced tools backed by consent controls and innovative 3rd party outsourcers, such as Solutions by Text.

CallThru® 360

Comprehensive information within **CallThru 360** delivers instant inbound screen pops containing complete, current debtor information so agents are prepared to connect and collect. Call Recording is a must have and with our virtual office dashboard, agent phone statuses are readily available. When coupled with sophisticated Interactive Voice Recognition technology, **CallThru 360** helps you provide superior customer experience with 24x7 voice messaging and agentless payment collection.

The **Voice Campaign Manager** is available in your choice of a Human Initiated module, or System Initiated module, for accelerated dialing with unquestionable compliance, while maximizing your database contacts. Outbound dialing campaigns are created and backed by a full consent tracking history for each account for the greatest level of compliance and efficiency.

ClientAccess360™

Showcase your business with the **ClientAccess** web portal for on-demand reporting 24x7. Stop wasting time with print-and-mail reports, and start saving money with ClientAccess. Our secure, client portal integrates seamlessly with your Debtmaster® database for easy updates and on-demand reporting 24x7. We offer numerous built-in reports which you can configure so that your clients see only the information you choose to share.

THE INDUSTRY'S MOST EFFECTIVE COLLECTION SOFTWARE

DEBTOR DEMOGRAPHICS
OUTSTANDING ACCOUNTS
ACTION CODES

The screenshot displays the Debtmaster 360 Collector Window interface, which is organized into several functional panes:

- Debtor Demographics:** Displays debtor information for Joseph Fuller, including Name, SSN, DOB, DL, ST, Workid, Ext, Priority, and Contact. It also shows phone numbers and email addresses.
- Outstanding Accounts:** Shows a table of payment history with columns for From Date, From Amt, Paid Amt, and St. The table lists several payments from 04/17/2014 to 09/17/2014.
- Account Details Cross-Ref:** Displays a table of account balances with columns for Name, Stat, Serv Date, Princ Bal, Int Bal, Fee Bal, Cut Bal, AD, Client Reference No, Client ID, Debt ID No, and Settle Bal. The table lists accounts for Village Mall Foods, Good Faith Hospital, and Peter Ford Md.
- Action Codes:** Shows a list of action codes, including '52 - Phoned, Left Message'. It also includes fields for Action Detail, Log Activity, and Log Activity Message.

Optimized Collector Interface for Maximized Performance

With Debtmaster 360 you have control over agent productivity and workflow. Customize collector screen layouts to match each type of debt you service so agents always see the most relevant data first. Agents can easily initiate electronic payment processing on an account, and before you can say “screen pop” they are ready to take the next call.

Advanced Communications with Compliant Text Messaging

Debtmaster 360 advanced communication modules allow for powerful communications to debtors that have given express consent. With a read rate of 98% in 3 minutes or less, texting has emerged as the preferred method of contact for account alerts, communications, and payments. Debtmaster is seamlessly integrated with the collections industry's leader in text messaging, Solutions by Text (SBT). SBT has developed proprietary software designed to adhere to industry regulations regarding SMS texting. SBT's primary focus is to serve as an extension of your collections team to deliver the ideal text message at the ideal time with complete Debtmaster control.

CLIENT DEMOGRAPHICS

RECOVERY FIGURES

PRIVACY RULES

The screenshot displays the '101 - Client Window' interface. It is divided into several sections:

- Client Demographics:** Shows client ID 101, Name 'Good Faith Hospital', Address '2091 Medical Drive SE', City 'Seattle, WA 98104', and contact information for Bill Hawthorne and Clara Jones.
- Recovery Figures:** A table showing recovery data from 2014-02 to 2014-11.

Period	Listed	Amount	Returned	Amount	Gross Revy	Commission
2014-02	1	\$7,500.00	0	0	\$400.00	\$160.00
2014-03	2	\$17,570.00	0	0	\$750.00	\$300.00
2014-04	5	\$126,391.20	0	0	\$250.00	\$100.00
2014-05	3	\$15,450.00	0	0	\$2,633.30	\$1,053.40
2014-06	5	\$48,634.40	0	0	\$10,550.00	\$4,220.00
2014-07	0	\$0.00	0	0	\$2,100.00	\$840.00
2014-08	0	\$0.00	0	0	\$0.00	\$0.00
2014-09	0	\$0.00	0	0	\$0.00	\$0.00
2014-10	0	\$0.00	0	0	\$0.00	\$0.00
2014-11	0	\$0.00	0	0	\$0.00	\$0.00
- Activity History:** Shows activity logs for 06/02/2014 and 07/15/2014.
- Privacy Rules:** Includes 'HIPAA Options' with 'HIPAA Regulated' checked and 'Limit Match/Consolidation' options.
- Activity Notes:** Shows a note from 01/12/2016 at 10:22:49 AM by user ADM.
- Portfolio Window:** Shows fields for Purchase Date, Purchase Price, Face Amount, and Purchase Percent (0.000%).

Analyze Client Portfolios & Leverage Lucrative Accounts

Use Debtmaster to track client profitability and maximize each debt portfolio. With a few easy mouse clicks account managers can navigate the Debtmaster Client Window to review client demographics, recovery figures, and activity notes. Adjust and prioritize work queues to keep agents on target. Your sales team can work through a list of potential clients using contact schedules, and use built-in reporting tools to manage billing and payments. Privacy and security controls for sensitive data help your staff maintain HIPAA compliance.

BETTER VISIBILITY WITH REPORTING

“Running a successful and efficient collections business is necessary to guarantee client satisfaction – and that’s no small task. It was crucial that our collection software package possess the functionality of handling the vast array of client and agency needs without being cumbersome. After evaluating over 20 collection software titles, I found Debtmaster to be an easy decision. Simple to begin with, functional to administer and powerful to grow with. Debtmaster has fulfilled their promise to deliver the best collection software package available today and I am proud to be a client.”

S. Holmquist

Monitor Your Progress & Compliance

The Virtual Office Dashboard shows a real-time performance snapshot of users, teams, and the agency as a whole. Managers can quickly see each user’s status, such as logged in and on pace for the day. When combined with CallThru 360, each user’s status is also displayed. Performance towards goals include accounts worked per day, number of promises and amount per day, and payments posted per month. Display on a large screen for staff members and collectors to see their progress, or display on the desktop as a management tool.

Create informative reports to share with staff, management, clients, or investors. Debtmaster offers 60+ built-in reports and a unique ODBC interface for custom reporting with SAP Crystal Reports®, Microsoft Excel®, and other common applications. Track growth, motivate employees, and attract clients with meaningful information, eye-catching graphs, and up-to-date figures.

EVOLVED SECURITY & COMPLIANCE FOR COLLECTION INDUSTRY STANDARDS

Cloud Connected for Access Anytime, Anywhere

Debtmaster 360 provides your business with the tools to remain in compliance with local, state, and federal laws. In turn, providing your agents with a high-quality system to ensure your best business practices and policies are met.

If you are looking for ways to strengthen your security and compliance strategies, Debtmaster can help. Our software suite enables you to implement and automate best practices throughout your business with built-in tools like automatic AES 256-bit data encryption and partial masking for sensitive data, complete contact tracking, HIPAA compliance features, cell phone number and flag tracking, time zone sensitivity, PCI compliant payments, and user-level security controls for onsite and remote access.

What's more, cloud computing makes data backup, disaster recovery, and business stability easier and less expensive, because data is mirrored at multiple redundant sites around the world. These networks of datacenters are supplied with backup power generators, and they continually upgrade to the latest generation of fast and efficient computing hardware. That's more up-time which means more collections! Plus, being able to offer your employees access to systems from most devices, anytime and anywhere is a huge competitive advantage. This flexible human resource capability allows your employees to work in many different cities or regions that can give you a competitive advantage to offering more localized call center activity. This in turn leads to greater cost savings by having more staff work from their homes, while having complete centralized controls and compliance monitoring.

Microsoft Cloud Partner

Debtmaster 360 Powered across the Azure® Cloud

Microsoft has leveraged its decades-long experience building innovative software and running some of the world's largest, online services to create a robust set of security technologies and practices. These help ensure that the Azure infrastructure is resilient to attack, safeguards user access to the Azure environment, and helps keep customer data secure through encrypted communications as well as threat management and mitigation practices, including regular penetration testing.

Azure blocks unauthorized traffic to and within Microsoft datacenters, using a variety of technologies.

Azure meets a broad set of international and industry-specific compliance standards, such as ISO 27001, HIPAA, FedRAMP, SOC 1 and SOC 2, as well as country-specific standards.

Maximize Operational Efficiency

Cloud computing significantly reduces capital expenses like buying hardware and operating system software, as well as the cost of IT experts for setup and maintenance. Debtmaster version upgrades are quicker and easier than ever. You don't have to provide backup generators and expensive A/C systems for your server room. Additionally, you save the costs for electricity to power and cool your servers and the headaches managing that. What a savings!

Cloud services reduce the difficult tasks of planning for growth and maintaining your primary infrastructure and server hardware. More or less computing power, storage and bandwidth – right when you need it with only a month-to-month commitment. Ultimately paying for only what you need at the time you need it!

With your primary infrastructure safe and secure in the cloud, you can prioritize your team efforts on the core business of debt collection. Debtmaster and CallThru are available for premise installations. Debtmaster 360 and CallThru 360 are available in the Cloud. The difference lies with how involved you want to be in managing your IT infrastructure.

COMPLIANT DIALING WITH CELL PHONE MANAGEMENT

Protect Your Business & Improve Agent Performance

Debtmaster 360 with CallThru 360 integrates call recording for easier compliance monitoring with FDCPA, TCPA, and other federal/state guidelines. Each recorded call is encrypted and stored with the associated debtor account in your Debtmaster database. Recordings can be used to verify compliant phone conversations or highlight excellent collector performance for training and coaching.

No more cobbling data from multiple sources! CallThru reports blend phone activity and collector feedback with collection-related activity stored in Debtmaster for a more complete picture of agent performance. Encrypted recordings are played with a unique “permissions-based” audio player for the best in security compliance. Configurable auto-purge features help you manage recorded call storage.

CallThru 360 also helps you manage dialing compliance. A Phone History window is available for all phone numbers on an account, including a full history of consent (or revoke), notes, user ID, date and time stamp for each occurrence. This feature is also available for email and text fields.

“We use CallThru IVR to route inbound calls to wherever they need to go. Debtors can quickly reach a live person or make an automated payment without the need to speak with an agent. CallThru IVR gives us the ability to provide options for whatever the circumstance and comfort level the debtor might require.”

-- R. Naylor

Empower Your Company with 360 Degree Phone System Coverage

Maximize agent efficiency with **CallThru 360**. Intelligent call routing distributes inbound calls to quickly match debtors with the right live agents based on account assignments, languages, needs, skill requirements, and other pre-defined attributes. When caller ID is available on incoming calls a screen pop equips agents with complete real-time debtor information from the Debtmaster database.

CallThru 360 allows you to prioritize inbound and outbound phone traffic for smooth, efficient operations. Agent Queues and Right-Party Verification ensure that debtors are matched with the right agent every time. CallThru also uses time zone sensitivity to prevent agents from dialing phone numbers outside of regulated FDCPA calling hours. Thanks to our all-in-one design, CallThru 360 has real-time access to the most current phone numbers and locations available directly from your Debtmaster database.

Collect with Confidence Using Intelligent Communication & Collection Technology

Whether you're a small office or an agency with many call centers, Debtmaster® 360 with CallThru 360 can help boost agent efficiency, reduce operating costs, and strengthen your compliance strategy.

CallThru 360 is the industry's best phone system. And, with it being cloud-based, it is affordable to agencies of any size. Being fully integrated with Debtmaster, agents use a single application. This SIP-based phone system takes advantage of flexible and affordable voice services and uses Interactive Voice Response (IVR) for compliant communications and 24x7 payments. Intelligent incoming call routing increases agent efficiency while advanced reporting, monitoring & tracking, and call recording, assures your business practices and compliance goals are met.

FULLY INTEGRATED WITH INTERACTIVE RIGHT-PARTY CONNECTIONS

Maximize Contacts & Raise Your Recovery Rates

You can support agent productivity and boost recovery rates with more right-party connections using CallThru 360. This multilingual IVR system is unmatched in usability, affordability, and compliance. CallThru integrates seamlessly with Debtmaster, which means outgoing calls and messages can be scheduled according to dialing consent flags, time zones, and account history.

CallThru 360 is SIP-based technology, which can help you save money with your service provider. Unlike third-party vendors, Comtronic Systems does not charge per-connection or per-minute fees. The Debtmaster collection software gives you the freedom to run campaigns and manage low-balance or questionable accounts. Campaign and call disposition information is automatically populated in Debtmaster so agents can view important call results in real-time.

Human Initiated Dialing

With today's legal landscape as it is, your agency may choose to use all the latest technology to prove calls are Human Initiated, while still having the capability of dialing debtors on a tremendous scale. The **Voice Campaign Manager** provides the tools to maintain compliance with maximum efficiency.

360 DEGREE VISIBILITY WITH FULLY INTEGRATED REPORTING

Build Lasting Client Relationships

Showcase your business with up-to-date client reporting available through our secure hosted web portal. **ClientAccess™** equips you with customizable online reporting so your clients can access the reports they want, when they want them.

Stop wasting time with print-and-mail reports, and start saving money with ClientAccess. Our secure, hosted client portal integrates seamlessly with your Debtmaster® database for easy updates and on-demand reporting 24x7. We offer numerous built-in reports which you can customize so that your clients see only the information you choose to share. ClientAccess masks sensitive debtor information at the source to ensure that your data is never at risk.

“We have been utilizing the Debtmaster collection platform for nearly 15 years, and the addition of CallThru makes the relationship between software, phones, call recording and document storage a complete package. The single point of support is invaluable.”

-- M. Lammers

Ensure Client Confidence with Convenient Access, Anytime, Anywhere

The ClientAccess web portal helps you improve client confidence with on-demand account visibility. Reduce the time your agents spend assisting clients so your team can focus their efforts on debt recovery.

ClientAccess makes it easy for your clients to sort, search, and drill down through account details so they can find information faster. Clients can explore debtor history, payment history, account status, promised payments, and collection notes for every account. If you use our fully integrated Debtmaster 360 with CallThru 360 you can also incorporate the number of calls made on the Debtor History Report.

Your clients connect to the ClientAccess web portal with a link direct from your company's website. We let you brand ClientAccess with your company name, logo, and color scheme for a more consistent user experience. Assign a unique user ID and password for each client to provide secure, user-specific, 24x7 visibility on debtor accounts.
